Payment note

Reference PLG-2026-032 with your payment. This document was rendered from an offline API 2 input closure.

TERMS

Invoice PLG-2026-032

Scope and acceptance

The delivered files cover the document families and inputs named on the invoice. Acceptance confirms that the retained PDF matches the reviewed application output.

Storage and retention

The application stores the validated PDF on its selected Laravel disk. Pliego diagnostic jobs have an independent, prunable retention period and are not the durable business record.

Support boundary

Rendering is limited to trusted, application-owned HTML and materialized assets. Unsupported scene operations fail closed and do not publish a partial document.
